

Advance Directive

Due to the types of patients seen at the center and the types of procedures performed while receiving care within Capital Children's Healthcare d/b/a The Dental Surgery Center of DC, Advance Directives will be honored however;

The Do Not Resuscitate portion of the Advance Directive will not be implemented.

If the patient has an Advance Directive, a copy will be made and scanned into the clinical record. In the event of a transfer to an acute care facility, a copy of the Advance Directive will be included with a copy of the patient's medical record which will be sent to the hospital.
